NO REPLAY

I feel you coming through the night
You're on your way

I feel you pulsing through my mind

Don't wanna talk it out
Just gotta write it down
Just sing this song now
Before I lose it cause I know
There's no replay
It's gonna fly away
In ink it's gonna stay
And now I'll never let it go

It's all mine
Let's add a bassline
This one's a goldmine
Just keep it coming
Let it flow
No replay
Don't let it fly away
In ink it's gonna stay
And now I'll never let it go

GO OUT

You don't want to, don't want to go out
You don't want to, don't wanna go out

You don't wanna go out with me
But you say I'm good company
You're messing with my head
Tell me that I'm fine but you won't be mine

You tell me that you're not the one
That you're only good summer fun
But I'm not that dumb
I can see your heart
It's state-of-the-art

You don't want to, don't want to go out
You don't want to, don't wanna go out
You don't want to, don't want to go out
You don't want to, don't wanna go out

You don't wanna go out with me
But in actuality
You're trying to take some time
Cleaning up your act
Getting back on track

I know you're scared of getting hurt
But you know that I'm not her
We can take it slow
Cause anywhere with you is where I wanna go

HIT-AND-RUN

You say you love me but you don't
You say I'm perfect but you won't take me out
You say you wanna take my hand
You'd better make up your mind

I'm trying not to lose it but you're making it hard
Forgiving you for something every day
We used to be so easy, now it's gone too far
I feel like I'm about to go insane

You say you're jealous, yeah, you are
You tell me what to do and eat and say and wear and be
You say you can't just trust me
You'd better wake up and try

You think you're funny but you're not
You give me flowers then and now but you forgot my birthday
You didn't care enough to know
It's always me, I'm never good enough to make it on my own

I'm trying to keep my cool with you
It might be too late
I'm starting to wonder if I should stay
You're talking a lot but do you really wanna change?
We're going nowhere anyway

I say you're never gonna change
I think you're never gonna make that mistake
I say it's over, yeah, we're done
Now all you are to me is just a hit-and-run

RAINY SUNDAY

Don't walk out, don't you leave
Won't you listen to me?
I don't know what you can't see in me

I'd give it all to you
I'd give everything
But everything that you do
It's always been for you, you
Why can't you see?

Rainy Sunday
You're not with me
Here I sit by myself as I try to hold it together

You're not here any longer
You can't hold on stronger
This is what it's got to be

Don't you dare say you're sorry
Don't you dare talk over me
It's too late for all your apologies

I gave it all to you
I gave everything
But everything that you do
It's always been for you, you
So thanks for nothing

Rainy Sunday
You're not with me
There you sit by yourself as you try to hold it together
You're not here any longer
You can't hold on stronger
This is what it's got to be

There's no longer a "you and me"
There's no pull of your gravity
Now I'm free

Think it's time that you leave
When you're gone I'll just be
I'll just sit by my window and watch the rain wash us away

HOW LONG?

How long?

How long am I gonna be afraid to say what I feel?
How can I not when the hate in this country is real?
People saying that their freedom's being slayed
But they don't wanna fight for the freedom of their neighbors
And when?

When we gonna make better days for them?
When we gonna give up pride and start the loving again?
People trying to live and love and be loved
Without the fear that they're gonna be killed for it

Rise up, up up
It's on us, us, us
Rise up, up, up
For love, love, love

How long?

How long am I gonna wait for the world to change?
How long will I keep thinking someone's gonna save the day?
It's so much easier to wait and pray
And hope that someone else will do the work that belongs to me

And when will I accept that my logic is flawed?
Someone's gotta step it up and rise to the call
People hurting, it's my people, we're the same
But we're walking two paths cause of how we look & who we love

So rise for the people you know and love
And rise for the people you don't because
We all need love and we all need peace
And we all need to feel safe walking down the street

Do it for the ones who fought with every word they said
For the young—the ones who haven't faced it yet
For the people we've lost and the ones to come
No, we ain't got another second not to love

LIGHT IN THE DARK

Do you hear me?
Does my voice break through the noise?
It's been a while since I could sing for you

Do you see me
For the first time in your life
As I rise above the pain you put me through?

I'm not afraid to say the words that I have kept inside
Get ready for a new day
No fears to hide

Like a light in the dark
Music carries me home
Away from what my past mistakes have shown
The brightest light that I have ever known

I can listen to the beating of my heart
The voice inside keeps breaking through the dark
Now I can see the fire burning bright
I'll fall into the flame and let my spirit take flight

Like a light in the dark
Music carries me home
Away from what my past mistakes have shown

And I don't hear your voice
Now my heart's been set free
I'm not afraid of who I'm meant to be
The brightest light the world has ever seen

INTO THE SUN (FLY AWAY)

Just close your eyes with me and fly away
Fly away
Right away
Cause when you do you'll ride the wave
Just try to stay
Fly away

We'll take it easier than Saturday
Our holiday
Have our way
I know your mind is on the right away
Don't lie to me
Fly away

Hang your worries out to dry
Goodbye!
Don't let freedom pass you by
We'll fly!

I know you're stuck on bruises in the past
Can't take it back
That's a fact

But soon you'll wake up and you'll realize
Don't criticize
Empathize
Cut the ties

We all need a little space in time
Let your past become your why
And fly!

Just close your eyes with me and fly away
Fly away
Right away
(into the sun)
Cause when you do you'll ride the wave
Just try to stay
Fly away
(into the sun)
